20 YEARS IN VALUATION	TX + CO CERTIFIED	UAD 3.6 IN PRACTICE	RESIDENTIAL SINCE 2006
--------------------------	----------------------	------------------------	---------------------------

I started in 2006 in my father's firm, where I learned to define the appraisal problem before opening the form. Twenty years across coastal Los Angeles, Colorado, and Texas taught me to look closely at the property, its location, the people making the market, and the source support behind the report.
